Center for Plastic & Reconstructive Surgery  
Ann Arbor, Michigan

### Creating timeless beauty

The doctors' patient-driven philosophy doesn't stop at surgery. With its aesthetic wing on-site, the Center for Plastic & Reconstructive Surgery is all-encompassing in its variety of service options. Additional procedures include camouflage makeup and massage therapy to help ease the healing process. Likewise, surgical patients often receive both pre- and postoperative skin-care, as the doctors believe patients heal faster when their skin is in prime condition. In addition to preoperative and postsurgical skin evaluations, ultrasonic facial treatments and innovative laser services are also performed. Consultations are always interactive with a focus on patients' unique concerns so they are more knowledgeable about their options and as a result more realistic in their expectations. Each doctor also has a personal nurse and patient representative to help make their clients' aesthetic journeys more enjoyable and informative.

FOREHEAD LIFT

#### HOW CAN I SURGICALLY CORRECT A SAGGING FOREHEAD?

A forehead lift will rejuvenate the forehead and upper eyes, lessening furrows and repositioning tissues for an uplifted appeal. The procedure is performed endoscopically, with several incisions in the hairline, under sedation with local anesthesia. Camouflage makeup is available to conceal redness or bruising, and onsite lymphatic massage can help decrease swelling and expedite the healing process.

## “like you, our approach is individualized”

WITH MORE THAN 75 YEARS OF COMBINED SURGICAL EXPERIENCE, THE DOCTORS AT THE CENTER FOR PLASTIC & RECONSTRUCTIVE SURGERY HAVE ESTABLISHED THEMSELVES AS A COHESIVE TEAM IN ANN ARBOR, BRIGHTON, CHELSEA, DEARBORN AND SALINE, OFFERING PATIENTS A DYNAMIC RANGE OF SURGICAL AND NONSURGICAL PROCEDURES. BELIEVING THERE IS STRENGTH IN NUMBERS, THE SURGEONS SHARE A UNIFIED GOAL IN DELIVERING SYNERGISTIC CARE SO EACH PATIENT BENEFITS FROM A BEAUTIFUL EXPERIENCE.

#### ABOUT DRs. IZENBERG, HING, BEIL AND SHERICK

##### HOW DO YOU GO OUT OF YOUR WAY TO SHOW PATIENTS YOU CARE?

Upholding a concierge approach to medicine, we call each postoperative patient the night of surgery and see them the day after at their house, the office or the hospital. There is also an option to stay at a hotel attached to Saint Joseph Mercy Hospital, which is conveniently connected to the practice.

##### WHAT THERAPIES DO YOU OFFER FOR PATIENTS WHO AREN'T SURGICAL CANDIDATES?

For those who aren't quite ready for surgery or desire nonsurgical rejuvenation therapies, our 7,500-square-foot practice also boasts a complete noninvasive aesthetic wing, where injectables, microdermabrasion, chemical peels, laser treatments and light-based therapies are performed.

##### HOW DOES A MULTI-DOCTOR PRACTICE BENEFIT PATIENTS?

It's very common that we will consult with one another, offering additional perspectives so patients can receive the wide range of skills from our practice's experienced team. Our partnership extends itself beyond the operating room, as one of us is always available for after-hour care.

##### IN WHAT WAY IS YOUR PRACTICE COMPREHENSIVE?

With a dedicated staff of 25 members and a fully accredited surgical suite, the Center for Plastic & Reconstructive Surgery offers all-inclusive and noninvasive treatments, as well as the combined proficiency of its multiple surgeons.
